### SUMMARY

As a skilled fresher trained in React, I aim to become a Frontend Developer. I have built interactive web applications, mastered Redux for state management, and worked with RESTful APIs and Framework, with additional knowledge in Node.js. I excel in problem-solving and optimizing web performance, and have strong communication and teamwork skills developed through collaborative training projects.

### FEATURE PROJECT

#### ▪ Bachal

React Mui Firebase Redux JavaScript

It's a chatting application where users can add friends, send messages, create groups, block friends, and find other users.

🔗 **Live Project :** <https://bachal.netlify.app>

#### ▪ Orebi - Dashboard

React Node Js MongoDB Express Js Redux JavaScript  
Restful Api

🔗 **Live Project :** <https://orebi.netlify.app>

#### ▪ Hancock- Responsive & Animation UI

React Node Js MongoDB Express Js Redux JavaScript
